Ежедневный обзор мирового рынка акций

21 марта 2012 г.

На биржах США во вторник наблюдалось снижение котировок. Индекс S&P 500 потерял 0.3%, Russell 2000 – 1.02%. В аутсайдерах были акции нефтегазового сектора (-1.43%) и промышленного сектора (-1.1%). Количество растущих/падающих акций составило 136/355. Индекс CBOE put/call в индексе S&P 500 остался на уровне 1.31. Разница по волатильности между опционами 90 и 110% осталась на уровне 9.94 п.

Основным фактором снижения котировок стали сообщения из Китая о повышении топливных цен, самом высоком за 2 года. Впрочем, к концу торгов пессимисты растеряли пыл, а дельта-хеджеры вернули индексы практически к уровням предыдущего закрытия.

Данные по динамике строительства носили нейтральный характер – количество новостроек сократилось на 1.1%, выданных разрешений на строительство – выросло на 5.1% в феврале (прогноз - +0.1% и +0.6%, соответственно).

На торгах в Азии в среду преобладает снижение котировок. Hang Seng на 10:00 потерял 0.48%, корейский KOSPI – 0.67%. Японский Nikkei потерял 0.63%. Австралийский S&P/ASX 200 потерял 0.48%. Индексы шанхайской биржи в среднем потеряли 0.5%. На валютном рынке особых изменений не наблюдается, австралийский доллар консолидируется после снижения.

С технической точки зрения основные индексы обновили максимумы 2011 года – коррекция не удалась. Цели дальнейшего роста – 1430, 1466, 1520, 1570. Впрочем, коррекционный потенциал накапливается – при его реализации возможные цели будут находиться на уровнях 1360, 1320, 1300. Если формация с сентября 2011 года – 5-ти волновка, то коррекция может носить плоский характер и и закончится в пределах месяца. В дальнейшем возможно продолжение растущего тренда с целями 1466, 1570.

Если мы наблюдаем конец корректирующего паттерна с 2009 года, то конечные среднесрочные цели находятся в районе 1100, 800 по индексу. В этом случае поддержки располагаются в районе 1260, 1200. Впрочем, вероятность данного сценария снижается.
